Basic Overview

Developing Stage

What is the Goal Market of VChanneling?

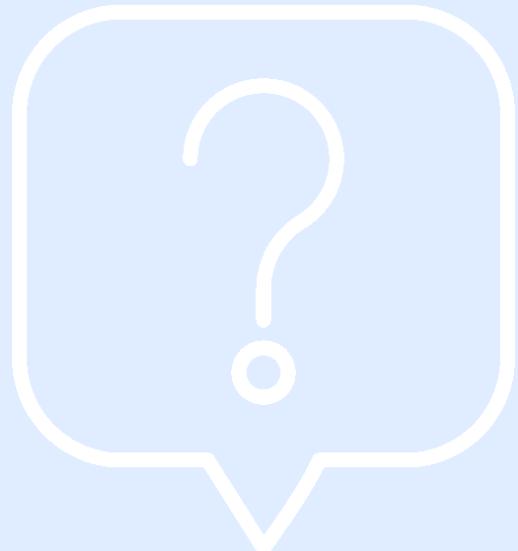

What is the Goal Market of VChanneling?

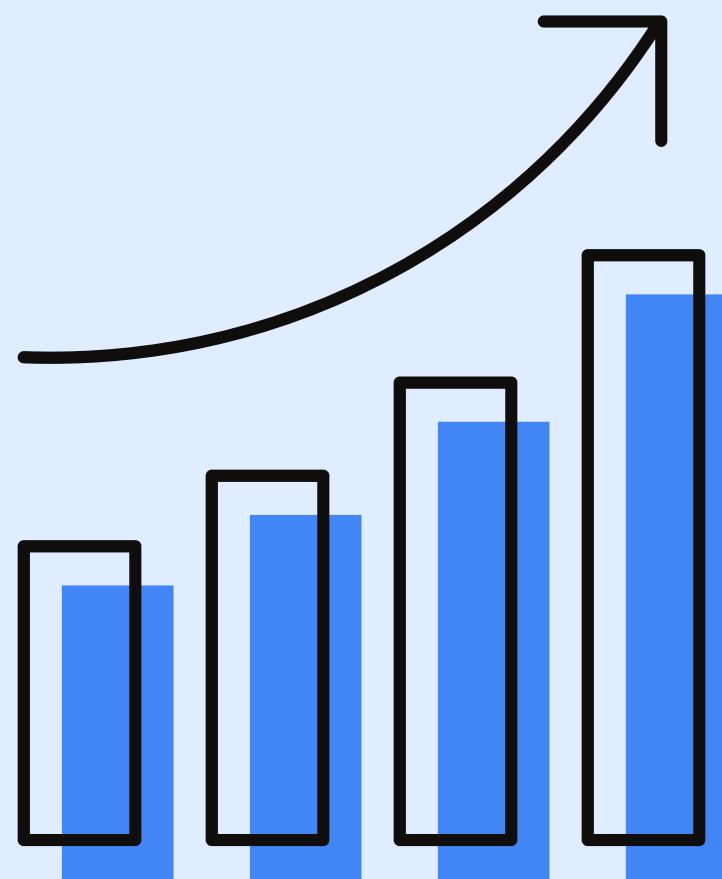

- Anyone can be sick from time to time
- So, "EVERYONE" is our goal market

Market Analysis

WHY SHOULD ANYONE BUY vSCOPE?

- First ever in Sri Lankan market
- Affordable price - Rs. 3,500/-
- Condense Mic - 2,000/-
- Circuitry - 200/-
- Chest piece - 900/-
- Profit - 400/-
- One time investment
- Saving money
- Make life easier

Why vScope is so special...

Bluetooth stethoscopes available already,

BUT,

they can only operate within the distance range of 5 m from the doctor.

does **NOT** allow you to channel a doctor while staying at home..

Development and Market Plan

- Use a mobile application to channel the doctor and patient (Doc99)
- collaboration with Dialog
- Advetisement via Google Ad mob and Text messges via Dialog
- Social media marketing
- first stage 50 units of production
- Running feedback sessions

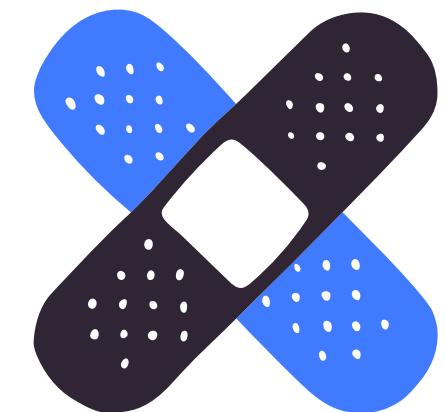

Features of Vscope

- Removable battery
- Portable Design
- Enough length of wire
- low cost repair

SAFETY

1. No exposed wires
2. Encloser provides the safety
3. Low voltage application

HOPE YOU WOULD **FEEL
